Oct 2 - Dec 4

(No class on Nov 20)

Cost: \$249 / 9-week session

Would you like to build your own computer programs? Do you know coding basics and want to learn a new language? Take your programming to the next level with our Python class! Python is a very versatile programming language that is widely used in the professional world. Open to students of all levels, this class will teach you Python coding from the basic syntax to more complex concepts, such as object-oriented development. Throughout the class, you will build a variety of projects including games, such as tic-tac-toe or space invaders. (Those with no prior coding experience will start with a short introduction to coding concepts using Scratch.)
